

At Brownsword Hall – 7.00 pm open doors for a prompt 7.30 start

2nd February 2026

Part One - Saleem Taijbee – Drone Photography, a Taster

Saleem will kick off the evening with an introductory session on drone photography. As we saw from our recent talk from Rob Bridge, some wonderful images can be produced, with an entirely different perspective, through the use of a drone. Saleem will talk us through his learning experience of a drone with examples of his images.

Part Two - The story behind the picture – from our members

The second half of the evening is an opportunity to get behind the surface of our images. Most of the time we see a small part of members' work and, even then, it is often the image itself and no more. Even the viewing of an image might last but a few seconds.

Tonight, we will take a bit more time to appreciate the craft of an image, by learning more about the background story. What was the situation? What were the challenges? What was the objective and was the photographer happy with the outcome? Was a risk to life involved.....?

It should be a fun and interesting evening.
